

Hi,

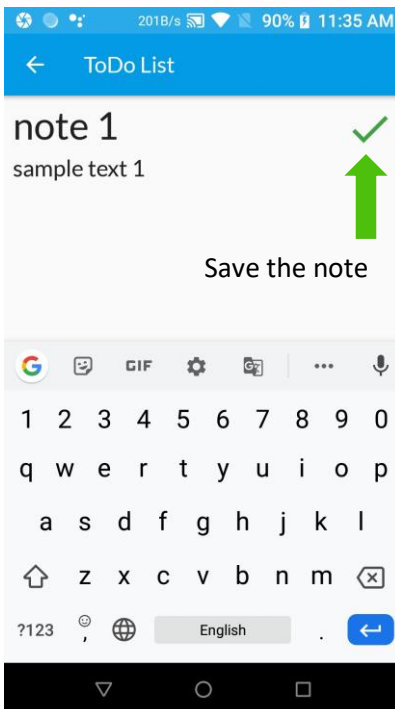

I am Apoorv Gupta, second year B.Tech student. I have completed the project of todo list app given by you for the internship program.

Here is the app:

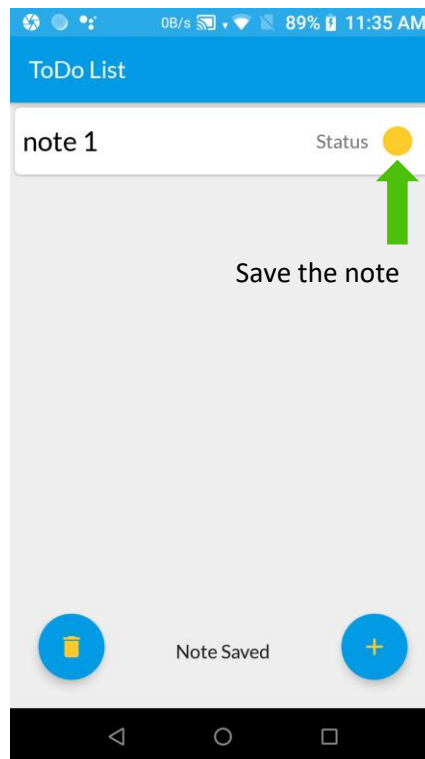

**1. Main Screen of the app: Click on the add button to add new note**

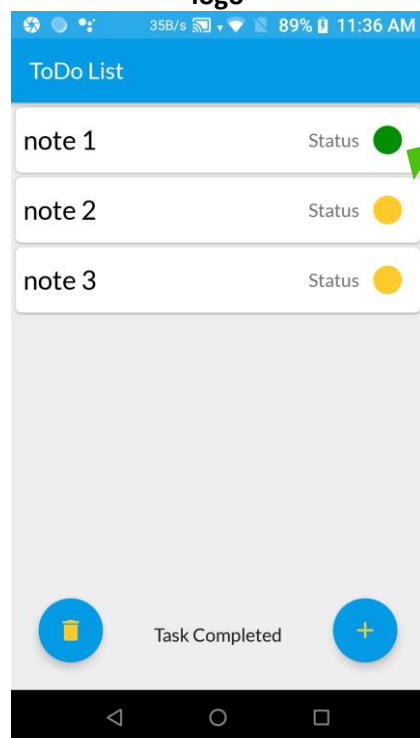

**2. New Note**

### 3. Saved Note shown, with by default pending status(Yellow)

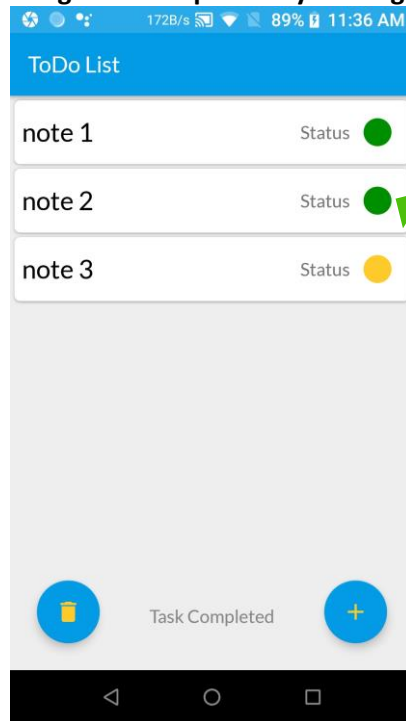

### 4. The status of the note can be changed from pending to completed by clicking on the yellow color logo

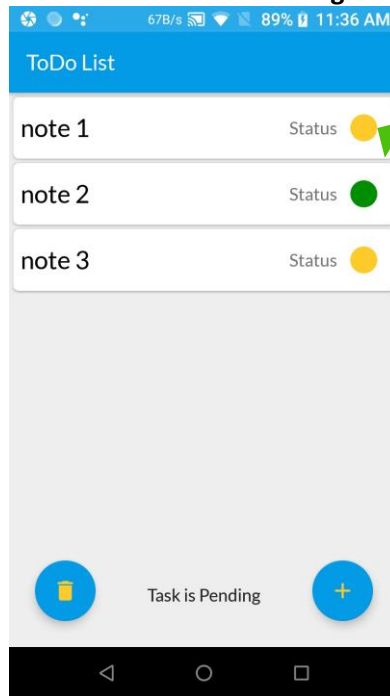

Change the status by clicking here

**5. Other note's status changed to completed by clicking on the green color logo**

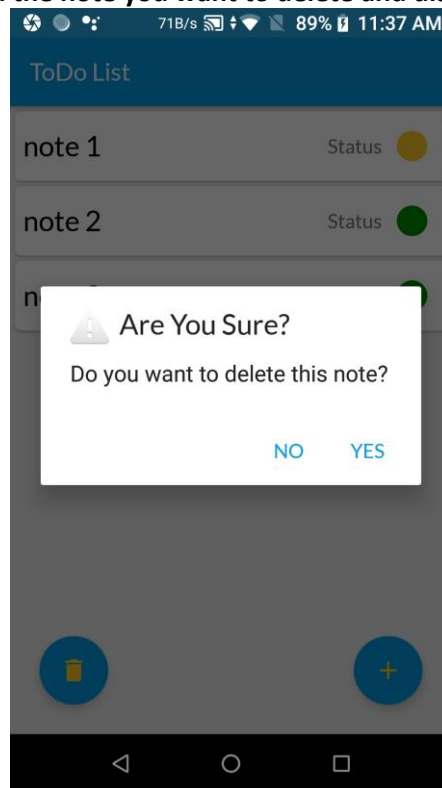

Change the status by clicking here

**7. The status of the first note is changed to pending**

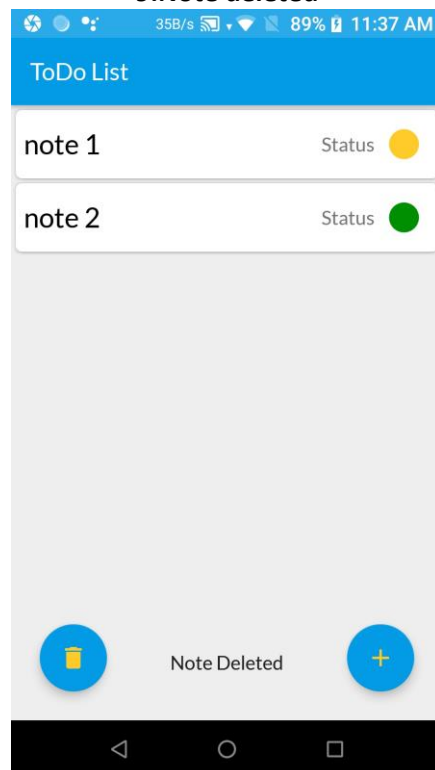

Change the status by clicking here

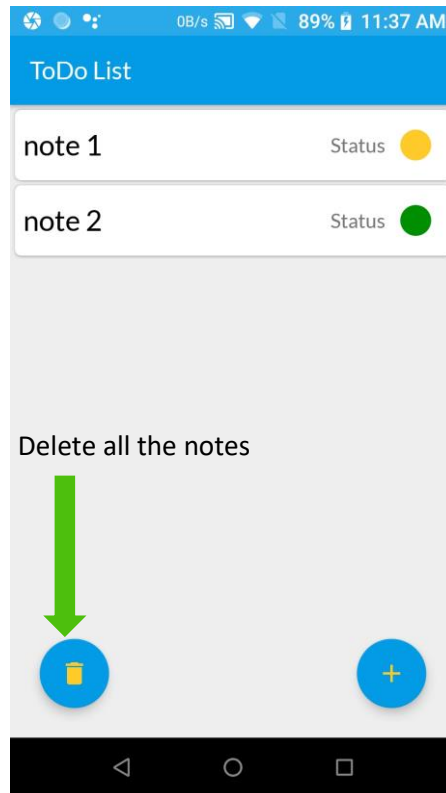

8. Long press on the note you want to delete and dialog box is shown

#### 9.Note deleted

**10. Click on the dustbin to delete all the notes**

**11. All the notes are deleted**
